

WELCOME!
Off-Road Riding Area
CALIFORNIA CITY PERMIT PROGRAM

California City is one of the fastest growing areas for Off-Highway Vehicle families to enjoy OHV recreation. Riders visit California City for its easy access for RV's and Toy Haulers. There are hundreds of miles of dirt routes that are open for riders, are ideal for all levels of experience, and lead to other advanced trails in trail systems such as the Rands Mts., Jawbone and Dove Springs, the El Paso and Red Mt. areas. Riders **must stay** on pre-existing, **NAMED** dirt routes as most areas are private property and it is trespassing to be on those properties. OHV and support vehicles are allowed only from 6am through midnight. Dirt routes are closed temporarily to regular motor vehicles traffic during off-road events for vehicles displaying CalCity riding permit. The City has a marked "Blue" trail, CC10, going into California City for visitors to enjoy local establishments. Riders **must stay** on the marked trail (CC10) when entering the main part of the City. Please read the back of your receipt for important laws and local ordinances pertaining to OHV use in California City.

Effective **March 2008** all Off-Highway Vehicles **MUST** display a "California City – Street Operating Permit" while being operated in California City, allowing OHV traffic on **DIRT ROUTES** that are within the designated riding area. Any dual-sport or street licensed vehicle DOES NOT need an operating permit. All permits issued at this time are **valid through June 30, 2017**. For more information visit us at www.calcitypd.org.
